Play Surprised Okotoks Citizens

(Okotoks Review)

The audience in the Okotoks Elk's Hall were treated to a distinct surprise when the Okotoks Young People's Society presented their three act comedy "The Second Puncture," under the capable direction of Mrs. W. H. Stout.

Each member of the well chosen cast displayed remarkable dramatic ability throughout the entire performance.

The opening scene was the interior of a rough mountain camp where Betty Holmes and Faith Hyland take refuge for the night. Dick Loring, Harry Mosley, Mr. and Mrs. Wallace and slippery Jim make unexpected entrances, complicating the plot. The scene changes with the escape of Betty and Faith from the mountain camp to Faith's city residence closely followed by the two men and a detective. The conflicting evidence of Norah the Irish maid, and Deliah the Irish cook, add humor to the situation. The arrival of Mr. Hyland, Mrs. Mosley and Grace Loring brings the play to a smashing denouement. The curtain falls as Dick discovers that Betty is the girl of all his dreams.

Delightful solos rendered by Miss Iola Thompson and Miss Elsie Lineham added to the charm of the program.

A basket of beautiful flowers were presented to the director Mrs. Stout as a token of appreciation.

The cast is as follows:

Betty Holmes Audrey Bannister
Faith Hyland Elsie Hoke
Slippery Jim Mac McGeer
Dick Loring Laverne Ratty
Harry Mosley Owen Kelly
Mrs. Wallace Dorothy Carr
Deliah Dorothy Carr
Mr. Wallace Eugene Hanson
A Detective Gordon Minne
Will Hyland Albert Kady
Grace Loring Lillian Carr
Lena Mosley Nettie Hishop
Norah Mrs. Stout

This play will be presented in Champion on Saturday night March 28th at 8.15 o'clock and is guaranteed to chase the blues away. Come prepared for a good laugh.

Teachers Meet At Carmangay

A meeting of the Champion Carmangay Local of the A.T.A. was held at the home of Mrs. W. J. White on Friday March 13th. Those present were W. J. White, J. E. Blain, E. Nowlin, Miss L. B. Grice, R. J. Baker, H. D. Faries, Miss N. McFall, Miss Archer and Miss Cameron. Mr. Baker was appointed to represent their local at the Annual General Meeting to be held in connection with A.E.A. Convention in Edmonton commencing April 6th. After the meeting adjourned the teachers were served a lunch which was greatly appreciated by all. The teachers of the A.T.A. of Champion and staff were entertained at the home of Mrs. W. J. White after the meeting—Carmangay Sun.

A large number from town attended the O.E.S. Chapter at Vulcan on Thursday last, the occasion being the official visit of the Worthy Grand Matron. Needless to say a pleasant time was spent.

Miss Joan Scott is home from British Columbia and is visiting her sister, Mrs. Royce Roggles.

Owners of Dogs Suspect Poison

Dogs were taken great care of for a few days after the discovery of tempting pieces of meat scattered in considerable profusion in the center of the town. As far as is known no dogs were poisoned and dog owners are now wondering whether the meat was poisoned or not.

Divide Honors At Basketball

(High School Notes)

The two Carmangay soft ball teams came to Champion to play on Saturday March 21. The Carmangay girls defeated the Champion girls 16-6. The Carmangay boys suffered defeat from our boys. The score was 17-5. In spite of the wind good games were played. R. D. Faries was umpire for both games.

Easter examinations were written in the high school on Monday, Tuesday and Wednesday of this week. It would be hard to say whether the students felt better or worse now that they are over.

To Connect Town With Highway

The road between the highway and main street to the east is being prepared for gravel which will extend to the gravelled portion of main street. To the west, as Harmony council declined to gravel their portion of the road, nothing will be done this year.

District Conference At Lethbridge

On Wednesday the 18th the Southern District of the Women's Institute held their conference in the Odd Fellows Hall Lethbridge. Mrs. Alcock presiding. Mrs. H. J. Montgomery Provincial President being on the platform, at noon the executive were invited to the Board of Trade luncheon and in the evening the W.I. banquet at which Mrs. Montgomery and Mrs. Alcock were presented with bouquets, after which followed a free theatre party for all delegates attending the conference. On Thursday at the close of a most successful conference, Mrs. Alcock was presented with a beautiful cedar chest by Mrs. Lynch Staunton on behalf of the W.I. members of the Southern District, who expressed deep regret at losing Mrs. Alcock as their director.

Head of O.E.S. Visits Champion

Miss Ella C. Isaac of Calgary, Worthy Grand Matron of the O.E.S., made her official visit to Champion Chapter on Wednesday, March 18th. She approved highly of the work of the Chapter which she found comparatively in the highest class. A banquet followed in which many interesting addresses were delivered. Visitors were present from Vulcan, Carmangay and Lethbridge. While in town Miss Isaac was the guest of Mrs. J. N. Beaulieu.

GRAND OPENING

Champion Theatre

CAMPBELL'S HALL

Saturday Night, April 4th
Ramon Navarro in

"The Pagan"

WITH RENE ADORE, DONALD CRISP, DOROTHY JANIS.

Navarro in a Flaming South Sea Romance

Moon-Lit lagoons! Whispering palms! Love untamed, unashamed! Then the shadow of the conquering white man! Navarro as a native South Sea Islander reaches new romantic heights. Actually filmed in the tropics, a year in the making! Beauty, drama, pathos, to sweep you off your feet!

Our Gang Comedy, "Cat, Dog & Co."

ADMISSION:

Adults, 40 Cents. All School Children, 25 and 15 Cents.

Van Brunt Press Drills

The most popular Drill ever used in the district.

Van Brunt High Wheel Drill

Reduced in price from \$15 to \$30.

Improved John Deere Disc Tiller

Always the Best, now better than ever.

Viking Fanning Mills

Will insure Clean Seed.

R. TYLER, Agent.

W. DIEMERT IN CHARGE

Easter Lillies and Plants

Arriving daily—The loveliest Flowering Plants and Lillies for Easter, including:

Rambler Roses, Geraniums, Begonias, Calens, Ferns, Cimerians, Tulips, etc.

Special Price of 40c bloom on Lillies, if ordered before April 1st.

CAMPBELL'S

"Where They All Go."

NOTE—That uproarious comedy, "The Second Puncture," is real entertainment awaiting you at the Community Hall, this Sat. Nite, March 28th.

THE

Savoy Hotel Restaurant

Completely Overhauled and Redecorated

UNDER HOTEL MANAGEMENT

Regular Meals will be Served at \$1.00 per day.

\$5.50 Meal Tickets for \$5.00.

Short Orders at any Time until 8.30 p.m.

We believe the home cooked meals we will offer will be found satisfactory both as to cooking and service.

When next selecting a Restaurant, try the Savoy and tell us how you like it.

Legal advertisements, 15 cents per line for first insertion, 10 cents per line for each subsequent insertion.

Advertisements of Wanted, Lost, Found, Stolen, etc., not exceeding one inch, 50 cents for first insertion 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, Mar. 26, 1931

NOTES AND COMMENT.

It may be classified as an inferiority complex, pessimism or any other old thing, but the impression that extremely careful expenditure of public and private funds is essential at the present time is growing rather than diminishing, despite the constant repetition of assurance that the corner has been turned and that things will mend rapidly. Where it is humanly possible the time for retrenchment is before becoming so far involved that there is no salvation, and to accept the idea that good times are bound to return soon and continuing expenditures on that basis looks like the height of folly when any attempt is made to sum up world conditions or the local situation. There is not the most remote assurance that the present fall will provide either a good crop or a good price for it. If the crop and a reasonable return for it could be taken for granted there would be no reason to urge caution, but until there is a good reason for optimism in this respect every possible effort should be made to make the burden as light as possible if things do not turn out right. A delay for one season in road improvements or other public works would scarcely be noticed except in extreme cases, and there is every reason to assume that taxes will be a real burden to everyone concerned by next fall unless the change for the better is greater than the most hopeful expect.

With the passing of the vernal equinox we are justified in assuming that spring is here. While as yet there is apparently little desire on the part of the farmers to even prepare land for sowing, if the present weather conditions continue work will start shortly. If the land remains as dry as it is now it matters little whether the seed is sown or not, as poor germination would likely result. Moisture in great big gobs is what is needed to clarify the situation.

The petition for a plebiscite on beer halls is under fire and it is possible it will be examined by a committee appointed from outside the legislature. The principal point of contention is as to whether an elector is a person who was on the last revised voter's list or anyone who could qualify at the present time. In any event it would have been supposed that those in charge of the petition would have put the matter beyond questioning while they were at it.

Explaining the difficulties of a 100-per-cent Pool at this time, Premier Bracken, speaking in the Manitoba legislature said: "A system, however desirable, to which any considerable section of the people affected takes violent exception, would be not only difficult to establish, but when established would contain the seeds of future disruption. "A 100 per cent Pool

in Western Canada, were it acceptable to a great majority of the people, might, if efficiently managed, possess some advantages under the present condition of the world wheat trade. But to obtain it Saskatchewan would have to favor it, Alberta would have to favor it and Manitoba would have to favor it, and it is possible, if recent court decisions have any direct bearing on the matter, that the Dominion Government would have to favor it as well.

"In addition to these factors there is the probability that in Manitoba such a plebiscite would not receive a two-thirds majority vote of the agricultural vote. Under all the circumstances, doubtful constitutionality, lack of action in Alberta, opposition in Manitoba, honest differences of opinion among producers, doubt as to a favorable outcome, under these circumstances, should Manitoba put itself to the expense of a plebiscite?"

Crop Conditions
In Europe

Russia—Weather mild in the south, but abundant snow still exists in the north. Roumania—An official report states that cereal crops have wintered well and there is a beneficial snow cover. Acreage to winter wheat, however, said to be 40 per cent smaller than a year ago. Last year's crop totalled 124,800,000 bushels and was considerably above normal. Bulgaria—Weather rather mild, but winter crops are favorable. This country produces only small quantities of wheat, but last year's yield was considerably above normal and totalled 61,000,000 bushels, compared to 35,785,000 bushels in 1929. Italy—Considerable variable. Temperatures mild and considerable rainfall has occurred lately. Last year's crop totalled 213,000,000 bushels, against 200,000,000 bushels in 1929. Spain—Winter crops satisfactory, but rain is needed in some parts for spring seeding. Last year's crop totalled 145,040,000 bushels, against 154,240,000 bushels the previous year. France—Complaints continue that the remaining acreage to wheat is in poor condition, with plant thin and young. Last year's crop amounted to only 232,000,000 bushels, while 1929 production amounted to 320,000,000 bushels. Germany—Weather wintry, with good snowfall in many parts. Prussia—Official crop report states condition of winter wheat satisfactory. United Kingdom—Recent heavy snowstorm will be beneficial for providing abundant subsoil moisture. —(Broomhall Cable).—Searle Grain Report.

Preparation of Grain
For World's Fair

Parity of variety will be an important factor at the World's Grain Exhibition and Conference, to be held at Regina in 1932, where growing tests will be conducted to determine the purity on all cereal exhibits shown. L. H. Newman, dominion cerealist, and chairman of the awards committee of the 1932 international grain exhibition, told producers of Ontario a few days ago that if they hope to capture the top prizes in the competitive classes they should sow the purest seed obtainable on a specially prepared piece of land. The crop should be allowed to fully mature, he continued, should be cut and stacked, the best stocks being covered from the weather and the best and ripest grains should be knocked out with a flail and saved for the

sample to be shown at the exhibition. "Sieve out the grain carefully to get the most uniform seeds and finally handpick the samples for an exhibition of this kind where competition will be so keen and the prices so well worth working for," he said.

No Snakes
In Bermuda

Passengers arriving on St. Patrick's Day, at Hamilton, Capital of Bermuda, were greeted with the fact that Ireland is not the only island in the world which is snakeless. The British colony of Bermuda harbours not a single snake. More than that, there are no reptiles of any kind on the island. Even further, there is no natural animal life of any kind save human beings and the domestic animals which they have raised in their tropical paradise. Curiously, too, there is no natural bird life. Not even seagulls, it is claimed, are ever sighted around this group of coral islands.

Then He Stopped

The shades of night were falling fast. The boy stopped on it and coughed past. A crash—he died without a sound. They opened up his head and found—Execlior.

Federal Government Issues Timely Advice Regarding Forest Protection In West

A statement on the forest fire situation in Western Canada has been issued by Hon. Thomas G. Murphy, Minister of the Interior, as follows:

"The well-being of the forest industries is so vital to Canada's general prosperity that the Federal Government must always retain an active interest in them. This interest necessarily includes serious concern with respect to forest fire losses. The Department of the Interior has a particular interest in the situation in the Prairie Provinces. There is, in the first place, the large area of forested land in the National Parks which is endangered by fires in surrounding territory; there is the general responsibility for preserving the forest subject of forest conservation throughout Canada; and lastly there is the natural feeling of goodwill toward the new forest protective organizations of the Prairie Provinces, the majority of whom have been recruited from personnel formerly connected with the field force of the Department of the Interior."

"Present indications are that these forest services are going to be faced with a very trying fire season during 1931. Weather conditions prevailing in Western Canada during the past three years have been remarkable for a continued deficiency of snow and rain-fall. Added to the accumulation of the drought conditions experienced, there is the fact that throughout this region precipitation during the past four months has also been considerably below normal. The result is that lakes and streams are at very low level, irrigation station waters being likewise affected."

"The forest fire season of 1929, was one of the most critical in the history of Western Canada. The season 1930 was likewise a trying one, although there was a considerable improvement over the year before in the matter of forest fire losses. This improvement was due in part to increased efficiency of fire protection, but particularly to a growing sympathy on the part of the general public, a state of mind that was given practical expression in efforts to co-operate in the matter of fire prevention."

"Inasmuch as the forest resources of the Prairie Provinces now belong wholly to the residents of those provinces it may be expected that public concern and public co-operation looking to reduction in fire losses will be even more evident. Nevertheless the mild winter and negligible amount of snowfall experienced throughout Western Canada to date means that, unless that region is favored with exceptional precipitation in the next two months, the new western forest services must be prepared for the repetition of the extremely hazardous conditions which have marked the past three years. The efforts of these new services will have to be backed wholeheartedly by the general public because it will be only through the exercise of pressure on the use of fire in or adjacent to the forest that disastrous fire losses in 1931 can be avoided."

"While the effect of forest destruction by fire is felt primarily in the region affected, nevertheless the losses incurred influence the general economic situation throughout the country. It is with this point in mind that I would call the attention of our western citizens to the necessity of unrelenting care in the use of fire throughout the wooded regions."

Customer (doubtfully)—Is it a pedigree dog?
Dealer—Pedigree! Why, if this dog could talk it wouldn't speak of either of us!

"Was papa angry when you said you could not sleep at night for love of me?"
"No, he offered me a job as first watchman in a factory."—Der Lustige Schatz, Leipzig.

Attraction Of Gems

Placing a High Money Value On Jewels Borders On the Volgar

Outside their proper sphere, gems attract merely because of their great monetary value, an attraction that unfortunately contains in itself the seeds of vulgarization. It may be wondered whether a ruby, or an emerald, or a diamond, or a fine pearl would be so greatly esteemed if it could be picked up in any street. Morality, indeed, are fond of pointing to the utility of so high a valuation of mere freaks among natural phenomena. And there is much truth and wisdom in the sermons of these moralists.

Yet one cannot help feeling that the world would be a poorer place in there were not some of the world if there were not some of the world to which a strong human instinct. To reach money values to the rare is a different matter. It does not exist these instincts; it degrades them. In its right setting, whether in poetry or in human life, who does not admire a jewel—Christian Science Monitor.

By Era A. Tinger

"The forest fire season of 1929, was one of the most critical in the history of Western Canada. The season 1930 was likewise a trying one, although there was a considerable improvement over the year before in the matter of forest fire losses. This improvement was due in part to increased efficiency of fire protection, but particularly to a growing sympathy on the part of the general public, a state of mind that was given practical expression in efforts to co-operate in the matter of fire prevention."

"Inasmuch as the forest resources of the Prairie Provinces now belong wholly to the residents of those provinces it may be expected that public concern and public co-operation looking to reduction in fire losses will be even more evident. Nevertheless the mild winter and negligible amount of snowfall experienced throughout Western Canada to date means that, unless that region is favored with exceptional precipitation in the next two months, the new western forest services must be prepared for the repetition of the extremely hazardous conditions which have marked the past three years. The efforts of these new services will have to be backed wholeheartedly by the general public because it will be only through the exercise of pressure on the use of fire in or adjacent to the forest that disastrous fire losses in 1931 can be avoided."

FOREST PROTECTION IS TRADE PROTECTION

Thirty years is commonly regarded as being the length of one generation, and it is more than probable that Canadians will some day look back upon the last generation—the first thirty years of this century—as the golden age of expansion in Canadian forest industry. It would be almost too much to expect that the Dominion should in any future generation, repeat, or even approach, the growth that has taken place since 1900 in the export of forest products. If the present trade can be maintained, that, in itself, will be a real achievement.

During the first ten years of this century Canada's exports of wood, wood products and paper aggregated roughly \$431,000,000. The second

decade saw this figure more than doubled, rising to \$967,000,000, and in the last ten years, 1921-30, it stood up to the colossal sum of \$2,645,000,000. Taking the whole thirty-year period, 1901-30, the value of Canada's exports of wood, wood products and paper exceeded the almost unbelievable amount of \$4,060,000,000.

Canada may, right now, have reached the zenith of her career as an exporter of forest products. Whether that be so or not, it is a pity that the Canadian people, of all peoples, cannot permit the appeal for forest conservation—however backed up it may sometimes seem—to fall upon deaf ears. For Canada, forest protection is trade protection of the most vital order.

Manitoba Wheat Champion

J. H. Beavies, Of Crystal City, Wins Title At Manitoba Soil Products Exhibition
John H. Beavies, of Crystal City, has been declared champion wheat grower of Manitoba. He won the title at the Manitoba Soil Products Exhibition, held in conjunction with the Manitoba Winter Fair, Brandon. Beavies exhibited a splendid sample of durum wheat that won the grand championship.

P. J. East, of Notre Dame De Lourdes, annexed the championship of the province in wheat, while the barley champion is John Wiener, of Miami.

Considerable interest was taken in the Manitoba Wheat pool special for amateurs, which John Sutherland, of Hamilton, won. The Manitoba Wheat Pool special for barley in the amateur class was won by Perry Fry, of Miami. The Canada Maltng Company's cup for maltng barley was carried away by George H. H. Knox, of Miami.

The Men Too

A few weeks ago Lord Willington left Canada for new honours in India. And now "Asco" ties—a social adornment scarcely ever seen in this country until popularized by our late governor-general—are being sold for half price in leading haberdasheries. Moral—It isn't only the women who follow Dame Fashion when she leads.

"Shall I help you with your sum?"
"No, teacher says I must make my own mistakes."

PREMIER'S DAUGHTER OPENS SCHOOL

Results Of Research Program On Storage And Commercial Drying Of Damp Wheat

Further results from the extensive programme of research on the storage and commercial drying of damp wheat which the Research Council conducted in 1927, are contained in a draft report which Edgar Stansfield, Professor of Industrial Research, University of Alberta, and W. H. Cook, of the National Research Council staff at Edmonton, have submitted to the Council's Associate Committee on Grain Research Work, on which the final report will be made, is progressing.

In 1929 the Council published the report which set out the conditions then established under which grain could be dried without damage to its milling and baking quality. The investigation has been continued since that time under the general direction of Professor Stansfield. Mr. Cook constructed the improved drier that has been used and standardized the equipment and methods employed.

The milling and baking tests so essential to the investigation were carried out in the co-operating laboratories associated with the Council, and to the Department of Field Crops, University of Alberta; Department of Chemistry of the Agricultural University, University of Manitoba, and the Department of Chemistry, University of Saskatchewan. The Seed Research Laboratory, of the Dominion Department of Agriculture, made the germination tests.

It has been found that:

1. The efficiency of drying increased with the air temperature and decreased with the air flow. On the other hand, the injury to baking quality was affected more by the hot air temperature than by any other factor, and 180 degrees Fahrenheit must be regarded as the maximum safe air temperature. With air at 210 degrees, slight damage was occasioned; above 240 degrees, under ordinary conditions of drying while under pressure conditions, such as over drying, considerable damage was caused by air at this temperature. At still higher air temperatures, 240 degrees and 270 degrees Fahrenheit, the amount of damage increased not only with the air temperature but with the air flow. High wheat temperatures are avoided though not necessarily accompanied by damage.

2. The moisture content of the wheat before drying appeared to have little effect on possible residual damage.

3. Drying in cold weather, when the air is excessively cold and dry, seemed to be less injurious to the quality of damp wheat.

4. Drying very damp wheat in two stages appeared to possess no advantage over the single stage method in preventing injury to baking quality. In fact, samples dried in this way showed slightly more damage than when dried in one stage and the drying operation was less efficient.

5. Drying wheat, with single stream air drawing the air from the cooler section and forcing it through the heater section, gave a higher efficiency although the hot air contained more moisture. This method caused higher wheat temperatures, but no damage to baking quality resulted.

6. The effect of high atmospheric humidity was to reduce the efficiency of drying, and the wheat contained more moisture. This method caused higher wheat temperatures, but no damage to baking quality resulted.

7. The effect of high atmospheric humidity was to reduce the efficiency of drying, and the wheat contained more moisture. This method caused higher wheat temperatures, but no damage to baking quality resulted.

8. Batch drying experiments were carried out using air temperatures from 120 degrees to 210 degrees Fahrenheit only. No significant damage took place under these conditions, and both the efficiency of drying and the baking results compare favorably with continuous drying, even under similar conditions. The higher maximum and differential wheat temperatures in the batch process suggest a greater risk of damage, however, and this method of drying is not recommended.

9. Wheat increases in weight per bushel as the moisture content increases, and heat drying never brings it back to its original weight. The extent of recovery is greater when the drying covers only a short moisture range, and when the wheat is dried at a slow rate.

10. Germination tests were tried as a possible index of injury, and although they showed qualitative agreement in many cases, their value as a check on drying operations was not proven.

States Still Importing Potatoes From Canada

Increased in Shipments From Canada
Attributed To Drought
Potatoes from Prince Edward Island and Nova Scotia are crossing the border despite the duty of 75 cents a hundredweight imposed upon Canadian potatoes in the Hawley-Smoot tariff bill. The United States customs authorities import several million pounds of seed potatoes from the Dominion, but during January this year, imports of seed potatoes reached a total of 25,900,000 pounds, as compared with 10,792,000 pounds in the same month of the previous year. In addition to imports of seed potatoes in January, some 9,000,000 pounds of potatoes for food were imported.

Some weeks ago Baltimore, the centre of the potato producing area of Maryland, welcomed the steamer "Shagabon" with 9,350 bags of pure Nordic spuds in her hold. Before docking at Baltimore the ship discharged 21,000 bags of potatoes to feed New Yorkers.

Shipping men say the shipment of Canadian potatoes received at Baltimore was the first of its kind in many years.

Importation of Canadian potatoes in large quantities this year is attributed to the drought in the United States.

For Making Mental Tests

A phenology machine has been developed for making mental tests of humans. The machine has 1954 sensitive "fingers" in a huge frame, which is fitted on the subject's head for a reading. The fingers "read" the bumps on his head. Then a printed slip falls out telling to what extent the subject possesses 32 faculties. The paper gives the ratings from poor to excellent in each characteristic.

New Way To Advertise

"I'm lost," wailed the small boy. "Please come one take me home to the store of Isaac Goldberg, 311 North Main Street, where my daddy is displaying his latest models of women's smart dresses at ridiculously low prices."

Fish From Moose Factory

First Commercial Fishing License Issued To Northern Centre

With the granting of a license to a Moose Factory commercial fishing company, that northern centre will ship fish this year to New York and Chicago for the first time in history. Although James Bay was discovered in 1631, it was only recently, it was claimed, that the first actual commercial fishing license was issued.

Although already are constructing warehouses.

Late in May the first shipment will be made to New York. Large orders are said to have been received from the United States cities.

The Subsidized Year

The original subsidization year was one year in seven, when all land of the ancient Jews was to be fallow for twelve months. The law was passed on Exodus 23.10. Now "subsidized year" is sometimes applied to a vacation of one year granted out of every seven.

Tenacity Of Silk Thread

Because silk thread has greater tenacity than steel wire of the same diameter, an inventor in Germany has developed a cannon made of silk tubes wrapped around with steel until the required size has been attained.

An Interesting Stamp

Newfoundland Commemorates First Trans-Atlantic Air Mail Flight

Newfoundland has issued a postage stamp commemorating the first trans-Atlantic air mail flight, which was accomplished in 1919 by the late Sir John Alcock and Sir Arthur Whitten Brown. The stamp is the fifth cent denomination of the Newfoundland air mail series. The dollar stamp of the series bears a map showing the routes of all the great trans-Atlantic flights. The series was printed in England and is beautifully designed and engraved. The tenth anniversary of the flight was commemorated by Newfoundland with a special postmark.

Everybody's Quers

Call a woman a chick and she smiles; call her a hen and she howls. Call a young woman a witch and she is pleased; call an old woman a witch and she is indignant. Call a girl a kitten and she likes it; call a woman a cat and she hates you. Women are queer. Call a man a pay dog and you flatter him; call him a pup, a hound, or a cur, and he tries to alter the map of your face. He won't mind being called a bull or a bear, yet he resents being called a cat or cub. Men are queer.

Ancient Halls Brought To Antiques Exposition

Transported To New York City From Exbridge, England

The carved oak hall in which commissioners of King Charles I. met commissioners of Oliver Cromwell, back in 1645 at Exbridge, England, has been transported, panel by panel, to the International Antiques Exposition at Grand Central Palace.

The treaty room of the old Treaty House at Exbridge, its carved oak stained by time, is rivalled by another room at the exhibition. It is from Buckhurst Castle, seat of the Earls of Warr. A pine-panelled room from Gray's Inn, London, England, is also reassembled.

There is furniture from many countries, ranging from medieval oak chests to 100-year-old Biedermeier just coming into vogue. Silver, jewels, and objects of art are included. Marion Powys will show a collection of royal haec several Russian aristocrats are offering articles through dealers and pottery and plate made at the Imperial factory founded by Catherine The Great, is displayed.

SCHOOLGIRL CHIC

All Tingo models are created and sketched in Paris and the patterns are made in New York City. The most fascinating touches of lingerie in trimming and fantastic trims, collars and cuffs mark the new season's afternoon clothes. Naturally they affect young people's clothes as they do models for grown-ups.

A charming dress for a schoolgirl has been chosen for today, showing a new collar and cuff which is as attractive as it is becoming to the average young miss.

Here on a frock of fine mid blue broadcloth is a delightful collar and cuff set in soft pink crepe de chine. Buttons and blue edged buttonholes decorated the original, but real buttonholes are not absolutely necessary. Sturdier schemes in, for instance, fine navy charlotte with blue and white spotted, or white collar and cuffs would also be exceedingly smart.

This pattern may be obtained in sizes 14 to 20 and 24 to 32. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or cash) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

New Giant Cunard Liner

Interior Decorations To Be Most Elaborate of Any Vessel Afloat

Continued rapid progress is being made on the new giant Cunard liner of 73,000 tons which is at present under construction in the yards of John Brown & Company, at Clydebank, Scotland.

Details have reached the local offices of the Cunard Line with regard to a number of the plans for the interior decoration of the liner which up to the present is without a name.

Mr. Eric Reford, vice-president of the Robert Reford Company, and general manager of the Canadian line in Canada, in discussing some of the features which will be part of the new Cunarder, mentioned the fact that she will have an exceedingly beautiful church and that it will be decorated in accordance with the best traditions of English ecclesiastical art.

"The liner itself will have eight decks above the water line," he said, "and between the aft and the centre funnels will be built a large dining room over to be placed in an ocean liner."

"The boat deck itself will be 70 feet above the water line, and the tops of the funnels, which are forty feet across, about one hundred and thirty feet above. The boat deck is to be about 650 feet long and the promenade deck 720 feet long."

"I understand that the interior decoration of the Cunarder has not been settled, but I am sure that it will be the most elegant that has ever been known on an ocean liner."

"It is fully expected that the construction of the hull will be well advanced by the spring," said Mr. Reford in closing.

Recipes For This Week

(By Betty Barclay)

DATE MUFFINS

- 2 cups special cake flour, sifted.
- 4 teaspoons baking powder.
- 1/2 teaspoon salt.
- 4 tablespoons sugar.
- 5/8 cup milk.
- 1 cup egg, beaten.
- 4 tablespoons butter or other shortening, melted.

1 cup dates, seeded and sliced.
Sift flour once, measure, add baking powder, salt, and sugar, and mix again. Combine milk and egg and add to flour, beating until smooth. Add shortening and dates. Bake in greased muffin pans in moderate oven (375 degrees Fahrenheit), 30 minutes. Makes 18 small muffins.

SNOWFLAKE PUDDING

- 2 egg yolks, slightly beaten.
- Dash of salt.
- 1/2 cup sugar.
- 2 cups milk, scalded.
- 1 envelope gelatine (1 tablespoon).
- 1 can (1 1/2-2 cups) coconut, southern style.

1 teaspoon vanilla.
2 egg whites, stiffly beaten.
1 1/2 cups fruit, canned grated pineapple, berries or any fruit in season.

Combine egg yolks, salt, and sugar. Add a small amount of milk, stirring vigorously. Return to double boiler and cook until slightly thickened, stirring constantly. Pour a small amount of hot mixture over gelatine, stir until dissolved, and add to remainder of mixture. Cool. Fold in 1/2 cup coconut, flavoring, and egg whites. Pour over fruit. Sprinkle with remaining coconut. Chill until firm. Serves 8.

British Machines For U.S.

A British firm, the Weiman Smith Owen Engineering Corporation, Ltd., of Victoria Station House, S.W., has obtained a contract for the delivery of 3,000 tons of machinery to Pittsburgh, Pennsylvania, the heart of the American steel-producing country. It will mean the employment in England, of 600 men for six months. The contract is for machinery for the production of welded steel tube.

Altitude and Power

As an aeroplane increases its altitude, its motor loses much of its power, experiments conducted by the United States Bureau of Standards show. Tests conducted revealed that at an altitude of 25,000 feet a motor which developed 410 horsepower on the ground only developed 100 horsepower at that height.

SUNDAY SCHOOL LESSON

MARCH 20

REVIEW: JESUS' THE WORLD'S SAVING PREPARATION AND POPULARITY

Golden Text: "Jesus of Nazareth, and healing all that were oppressed of the devil: for God was with Him."—Acts 10:38.

Devotional Reading: Isaiah 55:1-10.

Questions Upon the Quarter's Lesson

For Young People and Adults.

1. How was the world prepared for the coming of Jesus?
2. What traits in the character and preaching of John the Baptist suggest the Old Testament rather than the new?
3. In what respects was John the Baptist a great man? What was his message?

4. What is the lesson for parents in the account of Jesus' first visit to Jerusalem?

5. At the beginning of His ministry, what conflicting ideals did Jesus settle, and how?

6. What are some of the standards set by Jesus in His Sermon on the Mount?

7. Can one live by the Golden Rule?

8. How did Jesus express the evil of dishonestness without principle?

9. What is meant by the "stewardship of life," how did Jesus teach the lesson?

10. What questions has Jesus answered? How do His answers show His wisdom?

For Intermediates and Seniors.

1. What is Palm Sunday?

2. Locate the place where Jesus was born, the place where He lived until His baptism, and the place which was His headquarters during His public ministry.

3. How did the Boy Jesus treat His parents?

4. What were Jesus' first recorded words, and what was the occasion for them?

5. What was the message of John the Baptist?

6. In what way was Jesus tempted in the wilderness?

7. What is the Golden Rule?

8. What is a parable?

9. By what parable did Jesus teach the lesson of taking heed how one sows?

10. How did He teach the lesson that we must share with those in need?

A Review Of Important Words

Complete each of the following, and tell the occasion for its utterance.

Fourth Best Customer

Canada was Great Britain's fourth best customer in 1930, having advanced one place from the previous year, it was announced by the Department of Trade and Commerce after a report had been received from the British Board of Trade.

Canadian Geographical Society

Dr. Charles Cammell, deputy minister of mines, was re-elected president of the Canadian Geographical Society at its recent annual meeting, the first and second vice-presidents being, respectively, C. G. Gowen and Dr. J. Macintosh Bell.

Geologists have found that Cape Cod, Massachusetts, is sandy to a depth of 200 feet in some places.

No Cars For Voters

Ban Placed On Use Of Cars To Take Voters To Poll In Manitoba

Provincial Elections

Voters in Manitoba provincial elections will no longer journey to the polls in automobiles unless they are sick or infirm. The law amendment committee of the legislature decided to ban the use of cars to convey voters to polling stations.

Any voter, however, journeying to the polls in his own auto, can give a lift to a fellow voter en route to cast his ballot.

New Baggage Device

A device by which baggage may be unloaded and taken on a "plane" in flight has been developed. Dropping a load into a chute, the plane's trail line is hooked onto the baggage which is automatically shot forward at the speed the plane is travelling.

And the symptoms disappear at once.

You will never use crude methods when once you learn the efficiency of this more pleasant way. A small bottle is sufficient to show its merit.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for its many uses in correcting excess acid, for a bottle; say droppers. Complete directions for its many uses are enclosed with every bottle.

The Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the Phillips' name on bottle.

(Made in Canada)

PHILLIPS' Milk of Magnesia

For Troubles Due to Acid Indigestion Head Stomach Constipation Bow Disorders

What many call "indigestion" is very often nothing but excess acid in the stomach. The stomach nerves have been over-stimulated, and food acids. The corrective is an alkali, which neutralizes acids instantly. The best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard anti-acid with physicians in the 50 years since its invention.

One spoonful of this harmless, tasteless alkali will neutralize instantly many times as much acid, for the Phillips' name on bottle.

WESTERNERS ARE HEARD IN DEBATE IN OTTAWA HOUSE

Ottawa, Ont.—From Western members, the House of Commons heard something of conditions in the Prairie Provinces. Western members held the floor for a large part of the sitting. Incidentally Conservatives, to a great extent, dropped out of the debate. The great majority of participants came from the ranks of the Liberals.

At the outset, H. E. Spencer, U.F.A. member for Battle River, expressed the greatest disappointment with reference to agriculture in the Speech from the Throne. He painted a gloomy picture of conditions in the West. Bankruptcy, suffering, privation, hardship, exhaustion, and "dread," and the infinitesimal small amount of help that has been given, prompted him to speak of the agriculture parliamentarianism of the Throne Speech as a "hollow mockery," he asserted.

If conditions were any worse than they are, then and help Western Canada," he continued. "From the Speech from the Throne it would appear that it is another case of Nero fiddling while Rome burns."

The debate shifted back to Eastern Canada when Hon. P. J. Veniot, former postmaster-general, and Hon. J. L. Brown, Liberal Progressive, began a couple of questions to J. E. W. Beatty, president of the C.P.E., which Mr. Brown felt might result in improving conditions for the prairie farmer. Mr. Beatty might have done better, suggested Mr. Brown. And the president of the C.P.E. might rectify his efforts toward developing markets for farm products.

Investigation of the Canadian flax-milling industry was urged upon the government by Thomas Reid, Liberal member for New Westminster. He expressed the view that the recent report on bread baking industry had not gone far enough.

Criticism of the government's tariff policy came from J. Young, Liberal member for Weyburn. "We know from the government's own figures that last fall there were 20,000 unemployed," said Mr. Young, "and today there are 300,000." In what way, he asked, had the tariff policy helped Canada, in comparison with what it had cost.

Reference to secession talk in Western Canada featured the speech of John Valiance, Liberal member for South Battleford. His remarks made earlier in the debate by F. W. Turnbull, Conservative member for Regina, Mr. Valiance asserted that secession talk did not originate merely among five or six men gathered at White. He spoke of a document called the "Preamble" of Liberty, which, he said, contained demands similar to those made to the prime minister at Regina. All the farmers had received an answer to these demands, he said, was promised.

Amend Criminal Code

First Reading Is Given To Bill In House Of Commons

Ottawa, Ont.—The House of Commons gave first reading to a bill amending the criminal code. The measure which (Cons. M. Montague) provides:

1. In jury trials, defence counsel will address the jury after crown counsel had been heard in place of before crown counsel.
2. That judges should address the jury on questions of law only and not on fact.
3. That in Quebec province, presiding judge at such trials shall be a judge of the court of sessions of the peace.

Memoir To Aluminum Trade

Tokyo, Japan.—A memoir to Canada's aluminum trade with Japan looks up in a scheme that has now reached the formative stage, to supply all of this country's requirements of this metal by a plant to be established in Hokkaido (Korea).

W. N. O. 1882

In Interests Of Science

Canadian Doctor Faces Death As Result Of Experiments

London, Ont.—Dr. Wray Lloyd, graduate of University of Western Ontario, and one of the most promising of the young scientists working under the wing of the Rockefeller Institute, is facing death, for the second time as a result of experiments.

Dr. Lloyd contracted yellow fever from monkeys with which he was working in his New York laboratory. His condition is not regarded as critical, but doctors point out that tropical disease is always dangerous.

In 1928, while studying the heart at the University of Western Ontario Medical school, Dr. Lloyd created quite a sensation when he announced that by using calcium chloride as a stimulant he had caused hearts taken from dead rabbits to resume beating.

Desiring to find out the effect of the drug on the human heart, Dr. Lloyd had his assistant inject a small quantity into his arm. The young doctor became suddenly unconscious and death was close before he revived.

No Cattle For Export

If Canadians Consume Same Amount Of Meat As Last Year

Winnipeg, Man.—Canada will have no exportable surplus of cattle this year if Canadians consume the same amount of meat as last year, declared Roderick MacKay, rancher of High River, Alberta. Mr. MacKay arrived from Ottawa where he conferred with Hon. Robert Weir, Minister of Agriculture.

Mr. MacKay, with George Ross, of Lethbridge, Alberta, represented the recently-formed council of Western Beef Producers at a conference with the Minister of Agriculture regarding cattle export situation.

Mr. MacKay emphasized that the Canadian cattle industry was on a "decidedly home consumption basis." He deprecates reports of a "glut" on the market for export cattle. "He pointed out that on January 1, 1931, there were 11,546,000 pounds of dressed beef in cold storage in the Dominion, as compared with 23,000,000 on the same date last year. The five-year average, he added, was 22,570,307 pounds."

No Expansion Of Air Service Expected

Appropriation Compared With Former Years Likely To Hold Their Own

Ottawa, Ont.—No expansion in the air services of Canada is contemplated for the present year and it will likely hold their own, the air estimates are tabled, that appropriations for this purpose will do little more than hold their own in comparison with former years, it was stated here.

Steady increase in the air vote has been an annual feature for several years, but the economy is now demanded of those who direct Canada's air operations, however, and no appropriation will be set aside for expansion of existing services.

At the same time it is not contemplated that any reduction of the existing duties performed by the Royal Canadian Air Force will make, or that the present air mail services will be curtailed.

To Broadcast Arrival Of Governor-General

C.N.R. Chain Will Carry His First Speech As Far As Vancouver

Winnipeg, Man.—The Canadian National Railways radio system has been officially authorized to broadcast, over a coast-to-coast network, the arrival of the Earl of Beaulieu, governor-general designate, and his welcome to Canada by the prime minister. The new governor-general and his family will reach Halifax, Saturday, April 21 at 8 A.M.T. The addresses of welcome and Lord Beaulieu's first speech in the Dominion will be carried on a chain that will stretch as far west as Vancouver, according to E. A. Weir, director of radio for the Canadian National system.

Wreck Of Norwegian Vessel

Copenhagen, —Three passengers, one of them a five-year-old Canadian four members of the crew, perished when the Norwegian steamer "Hera" was wrecked on the rocks off Havnø, Norway, in a violent storm. Three of the crew members were women stewards. Fifty-five passengers and crew took to the boats and rowed to Havnø.

Former Manitoba Member Dead

Fred J. Dixon Resigned From Legislature In 1923

Winnipeg, Man.—Fred J. Dixon, 50, former member of the Manitoba legislature and for many years prominent in labor affairs throughout the Dominion, died March 18, at his home here.

Mr. Dixon, who had been in ill-health for many years, resigned from the legislature in 1923. He was first elected in 1914 as a Liberal, but later became a representative of Labor, sitting as a member for Winnipeg.

U. S. ADHERES TO ITS POLICY OF ALOOFNESS

London, England.—United States policy of aloofness from purely European armament problems has been adhered to in a decision made public at the conclusion of two days of conversations between Rt. Hon. Arthur Henderson, British foreign minister, and Hon. A. V. Alexander, U.S. Secretary of State.

It was declared that the United States would not participate in any way in the drafting of the new Anglo-French-Italian naval agreement at the foreign office. While the United States will not participate in framing of the pact, official U.S. opinion, echoed here, was that the tripartite agreement is an important and successful move toward settlement of European armament problems.

The only concern of the United States, it was said, is in regard to the world naval situation and the relation of the new accord to such existing naval agreements as the Washington Treaty and the Pact of London.

It was learned on high authority that U.S. experts on disarmament view the tripartite agreement as supplementing the London Treaty of 1930 without conflicting with that pact or calling for any changes in it.

A minor detail, N. B. Livingstone has sent the distinguished visitor an invitation to be his guest at a Minnesota Lake resort. Mr. Livingstone having met the then heir to the throne at that resort in 1922. The question as to where Uncle Sam will give the customary royal salute is not decided.

Washington, D.C.—Secretary of State Stimson received assurances from Ambassador Charles G. Dawes, in London, England, that satisfactory progress was being made in Europe toward completing the Franco-Italian naval accord. The secretary said it appeared that U.S. participation on a committee to draft the Franco-Italian settlement would be necessary.

It was considered possible that the final draft might necessitate only the signatures of France and Italy. The records of British signatures is still open for determination.

Find Ruined Temple Athens.—Ruins which he believes to be those of the first Temple of Eros, God of Love, have been found by Prof. Brogdon, of the American Archaeological School, on the northern slope of a hill mentioned in the records of the famous Greek geographer, Ptolemy.

To Employ Local Men

Manitoba Workers To Be Used On Construction Work At Churchill

Winnipeg, Man.—Labor's request that only Manitoba workers be employed in construction operations at Port Churchill, Manitoba's northern port, will be acceded to as far as possible by the Dominion Government.

The Winnipeg Labor Council recently requested the government to employ only Manitoba labor at Port Churchill and apply the Manitoba Fair wage schedule.

Hon. R. J. Manion, Minister of Railways, informed the council that Manitoba "certainly will get a large proportion of the work." He added, however, that it was not possible "to give it all to one province as some men have to be hired from elsewhere because of special qualifications."

SENATE HEARS ABOUT RELIEF WORK PROGRAM

REPORT DEALS WITH THE 1931 CROP PROSPECTS

Ottawa, Ont.—Prospects for this year's crop are dealt with in a report issued by the Dominion Bureau of Statistics.

"The weather," it states, "of the past four weeks marks the first period of the winter which has been somewhat encouraging to the prospects for the 1931 crops. Ontario winter wheat crop has been greatly benefited by heavy snow. In the prairie provinces there have been scattered snowfalls of some benefit."

In various parts of the prairie, during the winter," the report states, "there have been some reports of soil-dripping from areas here and there with dry top soil. At the present time, with the exception of localized areas, normal conditions regarding soil moisture prevail throughout the west, since the heavy rain and snow falling between harvest and freeze-up, together with the snowfall of the first two weeks of March offset the large deficiencies in winter precipitation. It must be remembered, however, that sub-soil moisture is low in those important wheat-producing regions which have suffered from drought in the past two years."

War Responsible For Depression

Sir George Foster Deals With Present Economic Conditions

Ottawa, Ont.—Two of Canada's oldest parliamentarians, at a point of service, Sir George Foster, and Rt. Hon. George P. Graham, dealt with problems of national economy in speaking in the Senate. The former, who will be 84 in September, dealt deeply into the causes of the present depression, and the latter, who is 74, dealt with the world-wide conditions were attributable largely to the last war.

As a former chairman of the tariff advisory board, Senator Graham said he was pleased to know the government intended establishing an economic council to advise the people of Canada wanted the government and not a tariff board of its duties.

Russia Taking Skilled Mechanics From Canada

Toronto Workers Anxious To Help

Toronto, Ont.—"Russia's world-wide need for skilled mechanics and expert craftsmen has been answered by 100 Toronto bricklayers, carpenters, technicians and contractors, who have been guaranteed employment in the Soviet Union, and will leave Canada early in May. Arrangements for sailing have been made," the Toronto Star says.

The party will be composed of Russians, Canadians, Frenchmen, Finlanders and other nationalities. Wives and children will travel with the bulk of households and many will carry with them their personal belongings, the paper says. It is understood a year's contract of work has been guaranteed. The men who are going to Russia are not among the army of unemployed. The Star learned. The majority of them are working.

Fishing Boat Case

Ottawa, Ont.—Seizure of the coast of British Columbia of four foreign fishing vessels by the Canadian fisheries patrol, is the subject of a case on which arguments were conducted before the Supreme Court of Canada. Judgment was reserved. The vessels, "Queen City," "Tillie" and "Sunrise," registered in the state of Washington, were seized on June 18, 1930, while the vessel, "May," registered in Alaska, was seized a few days earlier.

Ready For Delivery

Ottawa, Ont.—Delivery of the first of Canada's new destroyers, H.M.C.S. "Saguenay," will be made to this country on or about April 25. The ship, which was built in the United States, is expected to be taken to the state of Washington, where the vessel, "May," registered in Alaska, was seized a few days earlier.

How to Choose Your Wife
In parts of Africa where women carry great loads on their heads the men choose their wives on the strength of their neck. This custom is followed to some extent in this country.

We see by the paper that Mrs. Douglas Henderson was in Lethbridge last week. We doubt if that would stand investigation.

We notice that the "Gallagher" bulletin board reports that spring is here. We don't like to criticize a new enterprise but we would suggest that these parties refrain from predicting the weather. You know they say its only new comers or fools that do that. Of course, Doug and Horace have been here for some time.

"Good Equipment Makes a Good Farmer Better."

Local and General

E. Weiss and family moved to the farm on Tuesday, spring work being in the offing.

Mr. and Mrs. W. Harris have moved to the residence recently vacated by A. M. Watt in the subdivision.

Gravelling on the highway has made rapid progress during the week, the first coat being practically completed.

Miss Barrett, of McCullough Bros. staff, was in Calgary over the week end, visiting a sister who leaves for Ireland shortly.

The persistent spring weather will be very favorable to the annual clean-up, which in many instances is being proceeded with.

Mr. and Mrs. Ray Warren were visitors in Calgary over the week end. Ray assures this is positively the last outing before seeding.

E. N. Popham has moved from the old bank building to the residence erected during the winter by I. Granlin, opposite his garage.

April 18th is the date set for the Ladies' Aid four sack competition and those preparing for this contest are urged to get their articles ready.

Mrs. Albert Lucia and Mr. Ernest Lucia, of Rocky Coulee, mother and brother respectively of Roy Lucia, were visitors here over the week end.

Jas. Burnett was a visitor here last week, leaving for Calgary on Saturday. With Mrs. Burnett he moved from Vancouver to Calgary a short time ago.

Mr. and Mrs. J. M. Roebuck of Magrath were in town for the visit of Miss Isaac, Grand Worthy Matron, to the O.E.S. Chapter, of which they are members.

Gardeners have been busy in many instances during the week and if sufficient moisture arrives there should be some wonderful vegetables grown this year.

Dr. and Mrs. Heal, Mr. and Mrs. J. M. Moore, Mr. and Mrs. W. F. Bozarth and Mr. and Mrs. G. L. Dupue attended the Shriner's ball at Lethbridge on Friday, March 20th.

The Community Hall dance on Friday last was sparsely attended, counter-attractions being largely responsible. However, those who were present had a big time and dancing was continued until 2 a.m.

J. D. Henderson attended the Shriners' ball at Lethbridge.

"Give them something to remember you by," this Easter. Why not a nice plant, an Easter Lily or some delicious candy at Campbell's.

A very urgent meeting of the P.T.A. will be held at the school at 4 o'clock on Monday, March 30th.

Alterations in the interior of McCullough Bros. store have improved appearances to a noticeable extent and at the same time have conserved space. The grocery section is now located at the back of the store, and the full length of the store is visible from the front.

Frank, 14 year old son of Mr. and Mrs. Ed Griffin was having a swing at the Washington school on Monday when the chain gave way, the fall broke his leg below the hip. Dr. Hunt attended to him previously to being taken to the Holy Cross hospital, Calgary—Carmanay Sun.

Champion triumphed over Milo by the decisive score of 147 to 6 in a series of badminton games played here on Thursday last, although the ladies were beaten by the Milo team. This squares matters between the two towns, Milo having previously won from Champion both the visiting and home players thoroughly enjoyed the evening's tilt.

J. C. Anderson was a violinist at the Shriners' ball in Lethbridge. He was accompanied by Mrs. Anderson.

Mr. and Mrs. Clarence Davis returned to Champion during the week and are being welcomed by their many friends.

Mrs. J. N. Beaulieu leaves for Claresholm on April 1st, where she will address the graduating class of the Agricultural school.

Mr. and Mrs. W. F. Bozarth, Mrs. Anderson and Andrew Anderson visited Mr. and Mrs. W. S. Ryan at Warner on Sunday.

Stately palms silhouetted against a blue sky...sparkling seas...picturesque natives...jungle thrills...exotic foliage...all in a thrilling picture actually filmed in the South Seas. See "The Pagan," April 4th.

K. R. McLean, R. O. McLean & Anderson, Right Specialists 224-8th Ave West, Calgary will make his monthly visit to Champion Friday, March 27th, at the Drug Store.

Mr. and Mrs. H. C. Jopling moved to the farm during the week and Mrs. T. R. Jopling and Mrs. McDermott have moved into their residence in town for the summer.

Mrs. F. G. Alcock was an invited guest at a band of April 1st at the National Council of Women. The occasion being in honor of Mrs. A. J. Wilson of Ottawa, President of the National Council of Women.

Owing to the unfavorable weather on Wednesday, March 25th, McKay Bros. Sale at Carmanay was postponed until Thursday, April 2. A considerable interest has been taken in this sale locally a note should be made of this change of date.

"Tons of Money," is the attractive title of a comedy-drama now being prepared under the direction of Mrs. R. I. Baker, to be presented in the community hall the latter part of April. A strong cast has been secured and a real treat is assured when the presentation occurs.

The twenty-first annual convention of the Alberta Educational Association will be held in Edmonton during the Easter school vacation. The main speaker this year will be Dr. Ludwig Mueller, a distinguished scholar and writer and an official representative of the German Republic and Minister of Education. His subjects on Tuesday, April 7th will be: (a) The New Education Movement in Germany, (b) International Relationships.
